

PANEL FURNITURE CATALOG

2024

Who are we

All products offered for sale have been checked for compliance with **TSE** and other quality standards. Our furniture is manufactured in accordance with **European E1 standards**, and materials that are safe for the environment and children are used.

Our quality standards cover not only the product but also after-sales spare parts services.

We aim to eliminate the biggest problems in the sector, namely "**customer satisfaction**" and "**after-sales service**", from being a problem in international environments.

Instructions

- Our product is manufactured in compliance with **European E1 Quality** Standards, using materials that are environmentally friendly and safe for children's health.
- Our product is made of high-quality, first-class melamine-coated chipboard, with a glossy finish, which has a thickness of 18mm.
- The edges of our product are made with 0.40mm PVC edging.
 - Our products are shipped in a disassembled form.
- The product assembly is carried out using an **Allen Screw** system.
- You can repeatedly disassemble and assemble our products.
 - Inside the assembly box, you will find all the necessary **connection equipment** and **installation diagrams**, and the screws and other equipment that you will need are separately packaged and labeled.
- For ease of assembly, the **product parts are numbered** to match the **installation diagram**.
- Calculated using the maximum loading capacity of the relevant vehicles. **There may be slight differences during loading.**
- **Loading quantities are based on EPAL 2. If the loading is without pallet, the loading quantities increase by 40%.**
